

## Naomi House

Naomi House is situated in Sutton Scotney just outside of Winchester and provides care and support to children and young people with life limiting conditions.

Each year Naomi House looks after children, young people and their families from across Hampshire, Berkshire, Wiltshire, Dorset, Berkshire, the Isle of Wight and parts of West Sussex and Surrey providing palliative care and support including respite, emergency and end of life care, bereavement support and various types of therapy.

Naomi House also provides specialist support to family members including Mum and Dad, Siblings and Grandparents, supporting them through what can be unimaginably difficult times.

In recent years medical advances and improved treatment has meant that youngsters who have previously visited Naomi House are now enjoying life into early adulthood. As a result, in 2010 Naomi House launched Jackspace, its hospice for young adults. Jackspace is only the fourth of its kind in the UK and provides a unique support to young people who have outgrown Naomi House and whose need are often much more complex than those of children.

In addition to the care provided at both hospices, Naomi House also provides a 'Naomi House at Home' service currently operating within a 30 mile radius of the hospices. This service offers support to families who do not always wish to visit the hospices for respite but who would prefer to have some help at home. We are also able to offer families emergency and end of life care in the home at critical times when alternative help is not available.

It currently costs in the region of £5 million a year to continue providing these crucial services free of charge to the children, young people and families, 24 hours a day, 365 days a year.

We rely very heavily on the generosity of people in the community to continue providing the unique and vital services and could not continue without them.
